PROFESSIONAL SUMMARY

Independent UX designer with 20+ years shaping market-defining products at Google, Microsoft, and Motorola. I turn complex, data- and AI-heavy workflows into clear, polished interfaces that people actually adopt, working end to end from problem definition to high-fidelity Figma and engineering handoff with minimal supervision. I bring deep accessibility and inclusive-design expertise that raises the quality floor on every product I touch.

CORE COMPETENCIES

End-to-End Product Design

Complex Data & Dashboard UX

AI Agent UX

Design Systems

Rapid Prototyping

Information Architecture

UX Research

Wireframes to Hi-Fi to Handoff

Accessibility (WCAG)

Figma

SELECTED PROJECTS

Guided Step - AI-powered navigation (Google)

Defined the product vision and UX for a private research beta exploring AI-powered navigation for blind and low-vision users. Findings on user trust and multimodal feedback were submitted for presentation at the CHI 2026 conference.

Digitais da Floresta - complex-data dashboard (Google.org)

Led the UX for a deforestation-tracking tool for the Brazilian Amazon, translating dense environmental data into an intuitive dashboard. Researched with environmental scientists to build actionable, high-density visualizations.

Magnifier - Pixel accessibility app (Google)

Led from concept to launch. Reached a 4.8-star Play Store rating and 154,000+ monthly active users; core features such as live search earned praise from leading accessibility organizations.

EXPERIENCE

Adobe Apr 2026 - Present

Product Equity Consultant (Consulting)

- Run design office hours with Adobe UX designers, advising on accessibility conformance, Figma Stark plugin standards, and inclusivity beyond screen readers.

Google Dec 2023 - Feb 2026

Staff UX Designer, Android + Pixel Inclusion

- Defined the product vision and UX for Guided Step**, an AI-powered navigation beta for blind and low-vision users; findings submitted to CHI 2026 and now inform Google's accessibility strategy.
- Led Magnifier from concept to launch**, reaching a 4.8-star rating and 154,000+ monthly active users.
- Drove an 80% in-store conversion rate for Simple View** by leading the research and design pivot that moved the feature into the main setup flow.
- Championed older-adult accessibility through research, AARP partnerships, and leadership presentations that secured buy-in for new initiatives.

Google.org Apr 2023 - Nov 2023

Staff UX Designer, Digitais da Floresta

- Translated complex environmental data into an intuitive dashboard, applying consumer design principles to a data-intensive scientific domain.

Google

Sep 2018 - Mar 2023

Senior UX Designer, Nest Connectivity

- Simplified Nest Wifi setup and management, turning complex networking jargon into plain language; *The Verge* rated it 8/10 as the Smarter Nest Router.
- Cut common Wi-Fi issues by 15% by leading Project Haddock to proactively resolve persistent connectivity problems.

Google

Feb 2017 - Jun 2019

Senior UX Designer, Google Home Speakers

- Pioneered the iconic 4-dot lighting pattern for all Google Home and Nest speakers, giving millions of users a clear, non-verbal device-status system.

Skype (Microsoft)

2015 - 2017

Principal Design Lead

- Led a team of 8 designers to redesign the Skype mobile video calling experience, simplifying group interactions and driving adoption.
- Built a culture of rapid prototyping and user feedback across international teams, accelerating design validation.

Motorola

Pre-2015

UX Principal Designer

- Pioneered context-aware UX for the Moto X (driving detection, voice-to-text), reaching over 6 million users.
- Secured executive buy-in for a major Droid X UI redesign, presenting to Verizon leadership; the device sold over 5 million units.

SKILLS

Tools: Figma, Adobe Creative Suite (incl. After Effects), Protopie, ARIA

Design: End-to-end product design, interaction & visual design, information architecture, design systems, rapid prototyping

Research: UX research, co-design facilitation, usability testing, adoption measurement

Accessibility: WCAG, inclusive design, low-vision and older-adult UX, AI agent accessibility

EDUCATION

MS in Information, University of Michigan School of Information

CERTIFICATIONS

CPACC (pending)

International Association of Accessibility Professionals
